

# JAYASURIYA N

Aspiring AWS Cloud & DevOps Engineer

Coimbatore, Tamil Nadu | 8248142819 | njayasuriya502@gmail.com | linkedin.com/in/jayasuriya-n-898a64315

## PROFESSIONAL SUMMARY

Final-year B.Sc. Artificial Intelligence & Machine Learning student with hands-on AWS training across EC2, S3, IAM, VPC, EBS, EFS, and Elastic Load Balancer, plus practical Linux administration and shell scripting experience. Built AI/Python automation tools through two internships, translating theoretical concepts into working solutions. Seeking an entry-level AWS Cloud / DevOps role to apply cloud fundamentals and a strong automation mindset to building scalable, reliable infrastructure.

## TECHNICAL SKILLS

**AWS Services:** EC2, S3, IAM, VPC, EBS, EFS, Elastic Load Balancer (ELB)

**Cloud Concepts:** Cloud Computing, Virtualization, AWS Solutions Architect Fundamentals

**Linux Administration:** Ubuntu/CentOS - Shell Scripting, User Management, File Permissions, Server Admin

**DevOps:** CI/CD Pipelines, Infrastructure Automation, DevOps Fundamentals

**Programming:** Python, JavaScript, C++

**Web:** HTML5, CSS3

## PROJECTS

**Personal AWS Cloud Lab** | EC2 | S3 | IAM | VPC | Linux

- Provisioned and configured an EC2 instance within a custom VPC, applying least-privilege IAM roles and security group rules to control access.
- Hosted static assets on S3 and used EBS/EFS volumes to manage persistent and shared storage for the instance.
- Administered the Linux server (Ubuntu) end-to-end - user management, file permissions, and shell scripts to automate setup tasks.

**Quiz App with Timer** | HTML5 | CSS3 | JavaScript

- Built a responsive quiz application with a dynamic per-question countdown timer and a randomized question-selection engine.
- Implemented real-time score tracking with instant correct/incorrect feedback and a final performance summary.

## INTERNSHIP EXPERIENCE

**Python with Artificial Intelligence Intern - January 2026**

Net Tel Solutions India Pvt. Ltd.

- Developed Python-based automation scripts integrating core AI algorithms into data-handling pipelines, reducing manual processing steps.
- Built and tested AI model prototypes using Python libraries, translating theoretical ML concepts into working, demo-ready solutions.

**AI Tools & Prompt Engineering Trainee - December 2024 - January 2025**

Dot N

- Applied prompt engineering techniques to generate precise, consistent outputs from large language models (LLMs) across varied use cases.
- Evaluated AI productivity tools for workflow automation, identifying the best fit for real-world deployment scenarios.

## EDUCATION

**B.Sc. Artificial Intelligence & Machine Learning**

Sri Krishna Adithya College of Arts and Science, Coimbatore

CGPA: 7.35 / 10 | Expected Graduation: 2027

## AWS TRAINING & CERTIFICATIONS

**AWS Cloud & DevOps Training Program (Self-Paced)**

- Completed: EC2, S3, IAM, VPC, EBS, EFS, ELB, Linux Fundamentals, Cloud Computing Basics, Virtualization, AWS Solutions Architect Concepts.
- Currently pursuing: Auto Scaling, CloudWatch, SNS, RDS, DynamoDB, Lambda, ECS, CloudFront, Route 53, CloudTrail - working toward the AWS Certified Cloud Practitioner certification.
